Cash Out Coupon	On
Coin Sound	(Licensee's Decision)
Attract Mode	(Licensee's Decision)
Game Stop	Double

2. Pit department supervisory employees should provide close supervision of the dealers and of the customers' wagering activity.
3. Pit department employees should ensure that customers fully understand the rules of the Lucky Jacks & Queens twenty-one side bet.
4. Pit department supervisory personnel shall obtain auxillary bet meter readings (hard meters) and system generated meter readings (soft meter reading printout) from the Lucky Jacks & Queens side bet at the beginning of each shift. These readings and all "win coupons" issued for each day shall be forwarded to the accounting/auditing department on a daily basis.
5. Each day accounting or auditing personnel shall reconcile the "win coupons" to the change in the hard and soft meter readings.

6. Documentation should be prepared listing the drop (bets), win and win-to-drop percentage by shift, day, month-to-date and year-to-date for the Lucky Jacks & Queens side bet. This documentation must be maintained pursuant to Regulation 6.060.
7. Please be advised that Surveillance Standard #2 requires video surveillance over table games with progressive jackpots that may potentially exceed \$25,000.
